

# Outpatient services as of August 4, 2020

---

Community Hospital has resumed most outpatient services, rigorously following CDC protocols to ensure the safety of patients and staff. All employees and patients are screened for COVID-19 symptoms and history and required to wear masks or face coverings. Patients undergoing invasive procedures are tested for COVID-19.

## Mask requirements for patients

- Please put on a mask or face covering before entering any of our facilities. If you don't have one, we will provide one
- If you are unable to wear a mask, we will provide a face shield
- If you feel you are unable to wear a mask or face shield, we will ask you to return or reschedule at a time when you are able to do so

Taking care of your health is more important now than ever. Delaying care for your health issues risks your condition worsening, which can cause serious and even life-threatening consequences. If you need care, don't put it off — we can safely provide it.

Below are current hours of service. Please check our website, [chomp.org](http://chomp.org), for the most up-to-date information.
