**Laboratory Information: (to be completed by Laboratory Staff)**

Order Entry and paper processing. Please check that each of this is completed.

- Test code(s)
- Scan this original order form into SCC SOFT Media when complete
- Send original order form to HIM

## Information Regarding Direct Access Testing

State law provides that certain laboratory tests may be ordered directly by a patient without a physician's order. Community Hospital of the Monterey Peninsula cannot assume responsibility for interpreting individual results. **We recommend consultation with the patient's person physician.**

### **Age of consent for testing:**

- HCGU – Urine Pregnancy Test (HCG) – persons of any age can order HCG tests.
- All other tests – Parental consent is required for persons 17 years or age and under.

Direct access testing requires the consent of the person being tested. For minors, consent of parent or guardian is also required.

If a minor child refuses testing, Community Hospital of the Monterey Peninsula Laboratory will not perform the test even if the parent or guardian consents.

Results will be mailed to the patient and will be maintained in the patient's regular medical record. Copies **cannot** be sent to the patient's physician from the laboratory. The patient must send results to physician on their own.

**Billing:** Patients will be required to pay at time of service for direct access testing. Insurance billing is not available for this service.

For more information please contact Laboratory Services for Community Hospital of the Monterey Peninsula: (831) 625-4811
