

Hospice of the Central Coast **Transportation Program**

If you have a life-limiting illness and need transportation to medical appointments, Community Hospital's Hospice of the Central Coast can help. Through our transportation program, volunteers provide free rides for patients to and from doctor appointments, and radiation, chemotherapy, and other medical treatments.

How the program works

Call the transportation desk at 622-2746 to register.

Once you schedule your appointment(s), call the transportation desk again to let them know the date(s) and time(s).

The night before each appointment, a volunteer will call you to confirm the appointment. If you do not hear from the driver, please call the transportation desk first thing in the morning on the day of your appointment.

All requests for rides and schedule changes must be coordinated through the transportation desk.

For more information, please call 622-2746.
